13<sup>th</sup> Portuguese Conference on Artificial Intelligence

Guimarães, Portugal

3-7 . December . 2007

EPIA 2007 is the Thirteenth Portuguese Conference on Artificial Intelligence.

The purpose of this conference is to promote the research in Artificial Intelligence (AI) and the scientific exchange among AI researchers, practitioners, scientists and engineers in related disciplines.

As in previous editions, the program will be prearranged in terms of workshops dedicated to specific themes of AI, invited lectures, tutorials, thematic panels and exhibit sessions, all selected according to the highest reviewing principles.

The program of the Conference will include a Doctoral Symposium.

The Conference official language is English.
