

## Security in Industrial Environments

This special session tries to bring together researchers, engineers, developers and practitioners from academia and industry working in all interdisciplinary areas of Soft Computing and Computer Security to share the experience, and exchange and cross-fertilize ideas.

This special session will provide an interesting opportunity to present and discuss the latest theoretical advances and real-world applications of these two fields to the industrial domain. Organization & Contacts

This Special Session on Security in Industrial Environments is organized by:

Emilio Corchado  
Departamento de Informática y Automática  
University of Salamanca (Spain)  
escorchado@ubu.es

Álvaro Herrero  
GICAP Research Group  
Civil Engineering Department  
University of Burgos (Spain)  
ahcosio@ubu.es

Please access to the Special Session sub-website to get more information:
