MIT|Portugal^{Program}

PT-MIT EDAM PROFESSORSHIP

Within the frame of the MIT-Portugal Program a professorship in Engineering Design and Advanced Manufacturing (EDAM) is open at Instituto Superior Técnico, Department of Mechanical Engineering.

Candidates for this post should have scientific knowledge and practical experience in the area of Engineering Design. The vacancy is for an Assistant Professor.

Appointment at the Associate Professor level may be considered for exceptionally well-qualified individuals.

The successful candidate will head the Product Design and Development Research Area, which will make an essential contribution to the new PhD programme for European students “Leaders for Technical Industries” in association with the Massachusetts Institute of Technology (MIT). The package includes scholarships for two post-docs and a number of scholarships for PhD students.

The successful candidate will also contribute to the Department teaching activities. The appointment will be for five years, reviewed annually, with the possibility of reappointment to the retirement age subject to satisfactory performance. Salary per annum gross will be around 42000€

Enquiries about this vacancy and applications should be sent to
