Summer School on Generative and Transformational Techniques in Software Engineering

generative

Lecture Notes in Computer Science
LNCS   LNAI   LNBI

Feature Oriented Programming
Don Batory (The University of Texas at Austin)

Compiling Fast XML reader/writers from DTDs using Program Transformations
Ira Baxter (Semantic Designs Inc.):

Metamodelling and Model Driven Software Development
Jean Bezivin (INRIA, LINA, University of Nantes)

Program Transformation With Reflective and Aspect-Oriented Programming
Shigeru Chiba (Tokyo Institute of Technology)

The Transformational Approach to Database Engineering
Jean-Luc Hainaut (University of Namur)

Program Optimization and Transformation in Calculational Forms
Zhenjiang Hu (University of Tokyo)

Object, Relational, and XML Mapping
Erik Meijer (Microsoft, Redmond)

On the Use of Graph Transformations for Model Refactoring
Tom Mens (University of Mons-Hainaut)

FUNDAÇÃO ORIENTE

software improvement group

enabler
SOLUTIONS FOR RETAILING
