

2nd **Summer School** on Generative and Transformational Techniques in Software Engineering

www.di.uminho.pt/GTTSE2007

Model-Based Evolution

Krzysztof Czarnecki (University of Waterloo)

Software Linguistics and Language Engineering

Jean-Marie Favre (University of Grenoble)

Software Reuse Beyond Components with XVCL

Stan Jarzabek (National University of Singapore):

OO queries over OO programs with .QL

Oege de Moor (Oxford University)

Data Transformation by Calculation

José Nuno Oliveira (University of Minho)

How to Write Fast Numerical Code

Markus Poeschel (Carnegie Mellon University)

A Practical Guide to Building Staged Interpreters

Walid Taha (Rice University)

Domain-Specific Language Engineering

Eelco Visser (Delft University of Technology)

GTSE 2007
July 2-7
Braga, Portugal
